

## **LIGHT DUTY**

### **RECTANGULAR HOOKLIFT CONTAINERS**

Light Duty containers are designed and built for the landscaping industries as well as for residential clean out projects. They also serve the hauler who will be transporting only very lightweight, bulky material.

These containers are very popular among companies that have a lighter lift capacity hoist. Typically they haul only light debris such as mulch, wood waste (such as chips and saw dust), tree limbs, grass, leaves and garbage.

Light Duty containers are an option for those haulers whose needs do not require the Standard Duty container.

Specifications for Light Duty containers:
